

## *Dedication*

We are privileged and happy to dedicate this, the third volume of *Annona*, to Mr. R. L. Whitney, our principal, who, by his initiative, persistence and sacrifice, has done much to make this school the success that it is.

R. L. WHITNEY

## The Principal's Message

... to the students of our Composite High School and in particular to those who for three years have braved the rigors of pioneer life in our commodious school, have come up smiling every time, and now go out to new fields of endeavor.

I do not claim that I really have more to say than what I have just implied—that I am proud to be associated with you in this good work of building up what has already become one of Canada's noted rural High Schools. As a teacher one can usually say the same thing over and over and over again and not become too boring, for there is always the chance that he may be saying it to a new class. But it is terrible to find these repetitions in print. Teachers, like students, should grow—and it is with shame I note that I have been too busy trying my hand at amateur cottage-building, gardening or mountain climbing, and have made no improvement in my literary skill.

But since I never **did** learn to write I will pass up that regret and tell you of the thing that really makes me unhappy. I wish I were able to teach all the students who honor us with their presence. I am not implying that **you** have lost anything, for you have good teachers; but it is much nicer to know people in the classroom, struggling with new lessons or helping the teacher when he is in difficulties, than to see them only when they are late or have been hitch-hiking home in school hours, or have been rough with the furniture.

However, to many of our thirty teachers you are well known and your activities, your abilities, your adaptability, your willingness to help, your industry, your team-play have all been noted and the teachers are very glad, at any time, before or after you leave school, to speak or write a good word on your behalf. You need not hesitate to use any of our names as a reference nor to write to the school to ask for a letter of recommendation.

I hope you had plenty of fun at school, for there is always plenty of work and one is complementary to the other in the best kind of living. I hope you did not "go steady" and got to know as many of the girls and boys as you could for it is your business to know people, to get along with people and often to lead people. You should not try to live with one person until you have learned to enjoy the good fellowship of a great number of people and have learned something of the type with whom you can best live and enjoy whatever is good in life.

Life in the dormitory and to a lesser extent at school is really a great privilege when you have become old enough to be away from home. You have made a good thing of dormitory life here and have built traditions that make worthy "footprints on the sands of time." And all your life you should find of value the lessons you have learned in forbearance and in accepting graciously, giving generously and helping wherever your services can be of use.

I wish you all a wonderful summer vacation. Whether it means a job or a holiday by ocean or mountains, it will be a goodly change from school life. Those of you who come back here will form a nucleus for good school life next term and the others will be giving their best in new surroundings, perhaps with a little nostalgia for C.H.S. but always pressing on to the "best that is yet to be."

Ted: "What's the best way to teach a girl how to swim?"

Doug: "Well, first you put your arm around her . . . .

Ted: "It's my sister."

Doug: "Oh, just push her off the dock."

★ ★ ★

"That's the last straw," said the hula dancer caught in a wind-storm.

JOYCE DISHAW

## *The Editor Remarks . . .*

As another Annona rolls off the press at our High School, the memories of the past year are safely tucked away. Our staff leaves behind a yearbook which we hope in years to come will be prized as one of your most important memories of high school days.

My gratitude goes to Mr. Ernie Fletcher, the printer, for his helpful suggestions, criticisms and advice that have made it possible for us to create a book of which we hope you will be very proud. Our photographers, Mr. Fong and Mr. Yakimchuck, deserve much credit for the quality and quantity of the candid shots they have produced.

Special acknowledgement is due to Mr. Dawe and Mr. Flanagan, our staff advisors for their support in everything we have tried to do.

It was a big job to finance the book that you are now reading, and the firms whose advertisements you will find at the back of this book, greatly helped to ease our burden and make the production of the year book possible. As they have co-operated with us, let us now co-operate with them by patronizing them in every way possible.

To the staff of this book I am very grateful. Some members deserve special credit. Lorraine Brookes, our business manager, and Lucy Groom, "jack-of-all-trades" namely social editor, were of constant support and their help was greatly appreciated. Gwen Richards, Gail Smith, Beryl Lundberg, Jeanne Zubic, Gary Trimble, Earl Scott and Doug Silverberg have each contributed to the success of the Annona. To Gary goes a special bouquet for his excellent art work, designing and for his picture arrangements.

This year we have given you just as many pictures as our finances would permit. A new feature, you will notice, is the inclusion of pictures taken by Chick Ross from the Department of Economic Affairs. These shots were taken last fall capturing points of interest all over the Campus. We feel, too, that this annual reveals a decided improvement in the cover of our year book. It has been specially designed by Gary Trimble and the motif is emphasized by the original crest.

A question that seems to be arising in the minds of the students is what the name of our year book, "Annona", means. This title comes from the Latin word "annus" which means yearly. This name is appropriate, for your staff has discovered that it does take a full year to gather all the contents which we now present to you.

The year's effort has been a worthwhile experience for all of us and we sincerely hope that you will derive much pleasure as you read this, the 1949-1950 edition of your Annona.

## *President's Message*

With the semester system at the Composite High School, this year has been something new and different. It has been a year of difficulties and many changes of routine from those to which we have been accustomed. The success of the semester system is credited to the hard work and skillful planning of the teaching staff, and the co-operation of the students.

I would like to thank the members of the council and the executive for a swell job well done under the difficulties which we have encountered by the introduction of this new system.

To our staff supervisor, Mr. Ohlsen, I would like to say "many thanks" on behalf of the Students Union for the time and effort you have spent with us.

The Students Union has appreciated the help and co-operation received from the librarian and teaching staff.

I'm sure the students have enjoyed and will long remember the parties, dances, and many other extra-curricular activities which the Students' Union has striven to promote.

May I thank you, the students, for giving me your wonderful support in helping to make this year a success and may I hope the students next year will give their Union even greater support.

It has been a great privilege and honor for me to be President of the 1949-50 Students' Union, and to have been able to work with you.

# Academic Crest Winners 1949

The following were presented with Academic Crests at the Christmas Formal, December, 1949:

(Names in each grade are in order of Academic merit.)

**Grade XII** Evelyn Hedemark, Hugh Mogensen, Laurie Atkins, Colleen Kanten, Fern Tetley, Harold Noyes, Lewis Edwards, Wilson Sterling, Betty Domoney, Helen Swainson, Betty Mackie, Mildred Erickson, Hugh Bradley, Pat Rabidou.

**Grade XI** Ruth McCaw, Jessie Easton, Bernice Reilly, Doris Saarpe, Norma Jean Stewart, Bernice Allsop, Isobel McNeil, Rosemary Scott, Barbara Miller, Dawn Code.

**Grade X** Beryl Lundberg, Louise Warner, Wanda Kanten, Enid Moyse, Phyllis Cruickshank, Murray Edwards, Joyce Rowat, Doris Linden, Joyce Dishaw, Douglas Silverberg, Kathleen Thomas, Gwen Richards, Doris Dobbs, Karen Enno, Bernice Good, George Rode, Jerry Golden, Lorraine Brookes, Marjon Sundal, Gail Smith, Victor Prendergast.

## SO SIMPLE

Nurse (showing guest through the hospital): “. . . and all the pink blankets are for the girls and all the blue blankets are boys.”

Bright young C.H.S. thing: “Oh, I’ve always wondered how you told them apart!”

The average number of children per family in the U.S.A. is 2.7. Have you a little fraction in your house?

Joyce D. is so absent-minded that the other day she threw herself in the waste basket and put her gum on the seat! That’s what the yearbook did to her.

## Valedictory

Tonight marks the goal for which we students have been striving for a long time—graduation. It symbolizes the end of our school life and the beginning of our life as adults in a working world. While we are in a way glad to have accomplished what we set out to do—finish grade twelve—we are sorry to think that our high school days are over. Now, when they are almost over, we begin to believe what we have all heard so often—that school days are the best days of our lives.

We will miss the school and all that it stands for—friendship and fun, not to mention learning. In the future, when we look back on our life here, each of us will have his own favorite memories, but what dorm student will ever see a lineup of people without thinking of liver, or weiners and beans? Who of us will see a man zipping by on a bicycle without mentally comparing his speed with Mr. Whitney's? And when I see a crowded bus, I for one will remember those wild rides uptown, when there was standing room only, and not too much of that.

This year there are for the first time, some graduates who have taken their entire high school course at the Red Deer Composite School. This fact, combined with the fact that we are the first students in the school or in the province to graduate under the semester system, makes this a very special graduating class. We are the pioneers in what we hope will be a long line of students graduating from this school under this system. We have blazed a trail for those who follow, and in spite of all the talk about lack of school spirit, I believe that our record—in school and out—has been a good one, and one of which we should be proud.

In saying farewell to the school, we are really saying farewell to each other, for we are the school. When we go, the school as we know it will disappear, and our place will be taken by others. Even the initials which we carved on our desks when the teacher wasn't looking will likely seem as ancient as hieroglyphics to future students. Our relationship with each other will change too. Never again will we be class-mates, laughing together over some joke, or groaning over some impossible homework. We will be responsible citizens, whose duties will call us to many different parts of the world. But wherever we go, I am sure we will always remember each other, and our teachers, whose sympathy and understanding have helped to make our high school life the pleasant experience it has been.

Now, looking confidently forward to the future, while feeling many regrets at leaving our school, let us say to it, "Farewell."

RUTH McCAW

1950 GRADUATING CLASS

G—roping a place in the wide, wide world  
R—oaming so far afield  
A—lways remembering to strive for the best  
D—iligence, the weapon to wield.  
U—ntiring strength and the will to work,  
A—miration for zeal you'll acquire  
T—hrilling to thoughts of obtaining a goal  
E—xcelling, then rising higher,  
S—uccess shall fill your desire.

Ambition: Stenographer  
 Activities: Young Peoples  
 Nickname: Comf.

**DONNA COPPOCK—Eckville**

Ambition: To go to U. of A.  
 Activities: Keeping the peace in the dorm  
 Nickname: Coppock

**CHLO-ELLEN COX—Red Deer**

Ambition: Nursing  
 Activities: Sports  
 Nickname: Cocky

**DALE CROWTHERS—Red Deer**

Ambition: To go up NORTH. I wonder why.  
 Activity: June  
 Favorite Expression: You go to . .

**LLOYD DAVIS—Three Hills**

Ambition: Airforce  
 Activities: Reading, camping and fishing  
 Nickname: Dave

**HILARY de LAUNAY—Red Deer**

Ambition: Teacher  
 Activities: Sports  
 Nickname: Hill

**LONA DEY—Red Deer**

Ambition: Nursing  
 Activities: Swimming, skating, tennis, knitting, embroidery

**AMY DICK—Sunnyslope**

Ambition: Stenographer  
 Activities: High School Orchestra, Lorne  
 Nickname: Blondie

**GWEN DONAGHY—Red Deer**

Ambition: To get through high school and go to Edmonton  
 Activities: Sports and embroidery work  
 Nickname: Glen

**JESSIE EASTON—Red Deer**

Ambition: Pass Grade XII, make a million dollars, to go to University, and write a Best Seller.  
 Activities: Bowling, Glee Club, "Static"  
 Nickname: Squirt, Jezebel, Kate

**LEWIS EDWARDS—Red Deer**

Ambition: Farmer  
 Activities: Mechanics, Science  
 Nickname: "Lewey"

**MANON ENNO—Red Deer**

Ambition: Stenographer  
 Activities: Man-hating. Ha! ha!

## GRADUATES — Continued

### JANET FERGUSON—Blackfalds

Ambition: Lab. Technician  
Activity: Tumbling, skating, swimming  
Nickname: "Fergie"

### MAXINE FIELD—Bowden

Ambition: Farmer's wife  
Pastime: Running around in turkish bath towels  
Nickname: Mackie

### DONALD FALKMAN—Westcott

Ambition: Minister  
Pastime: Homework  
Nickname: Don

### JEAN FYFE—Red Deer

Ambition: To get a nice-looking boss  
Activities: Sports  
Nickname: Jeanie

### STANLEY GARDECKI—Manning

Ambition: Don't know what ambition  
Activity: Playing the mouth organ, listening to the radio

### VERA GARTLEY—Innisfail

Ambition: Undecided  
Activity: Sports  
Favorite Expression: Gee Whiz

### ROBERT GLOVER—Red Deer

Ambition: Military career  
Activity: Basketball and skiing  
Nickname: Bob

### ROBERT GOLDEN—Red Deer

Ambition: To attend University  
Activity: R.C.A.S.C.  
Nickname: Bob

### ROY GOUCHEY—Sexsmith

Ambition: Forestry Engineering (May settle for teaching.)  
Activities: Sports, hunting, motor biking, sleeping  
Favorite Expression: Not Printable

### SARAH GOULD—Consort

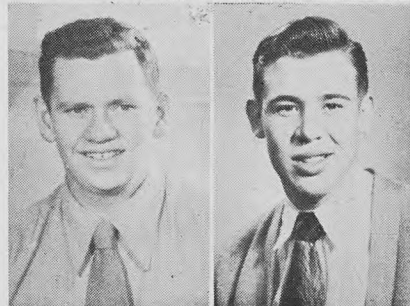

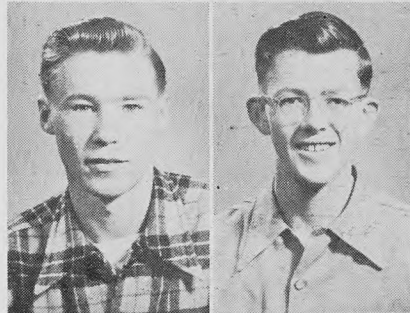

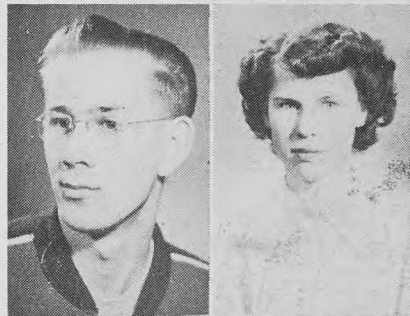

Ambition: To prove to certain people that what seems so is not necessarily so and usually is not.

### CARL GRASBY—Red Deer

Activities: School Functions  
Pastime: Entertaining  
Nickname: Carlos

### JAMES GREEN—Meeting Creek

Ambition: Verna  
Activity: Pool, baseball, collecting beer bottle caps  
Nickname: Jim

## GRADUATES — Continued

**LLOYD GILLETTE—Ridgewood**

✓ Ambition: To become rich with the least possible effort

Activity: Sports, women, and eating

Nickname: Lug

**DORIS GROSSE—Hillsdown**

Ambition: Stenographer

Activities: Skating, softball, dancing

Favorite Expression: "How can you tell."

**OLEK GRYWALSKI—Penhold**

Ambition: To get to Varsity

Activities: Sports, fishing and homework

Nickname: Ole

### RECORDS

A certain young girl who had designs on a certain young fella invited him over one afternoon to play records. While they were sorting through the records the girl came up with a few whose titles she was sure would "spur him on". However, he always managed to find some to discourage her. The conversation went something like this.

#### HE

"I'm in the mood for love."  
"I only have eyes for you."  
'I don't see me in your eyes anymore'  
"You're my everything."  
"My darling, my darling."  
"You, you, you are the one."  
"Maybe you'll be there."  
"Do you love me, do you love me"  
"A fellow needs a girl."  
"Home Sweet Home."  
"Love me or leave me."  
"You've got me where you want me."  
"Where are you now that I need you"  
"Confess"  
"Let's take an old fashioned walk"  
"Near you."  
"I'm full of fun and fancy free."  
"Why don't you haul off and love me'  
'Girls were made to take care of boys'  
"I've got a million tomorrows, love  
me tonight."  
"I'm topsy-turvy in love."  
"Stay all night, a Little longer."  
"Just a little fond affection."  
"Won't you love me tonight?"  
"What did I do?"  
"Hurry on down."  
" A kiss in the dark."  
"She's a home girl."  
"Open the door Richard."  
"Sing me a love song."  
"I never see Maggie alone."

#### SHE

"Don't fence me in."  
"I got plenty of nothing."  
"How lucky you are."  
"Alright Louis, drop the gun."  
"Haunted Heart."  
"Seven years with the wrong woman"  
"Cruising down the river."  
"The echo said no."  
"Fool that I am."  
"Fool's Paradise."  
"Toot, Toot, Tootsie, good bye."  
"What'll I do?"  
"Down among the sheltering Palms"  
"I can't begin to tell you."  
"Baby, it's cold outside."  
"Far, far away."  
"You've got too many sweethearts."  
"There's a million reasons."  
"I only want a buddy, not a  
sweetheart."  
"There's no tomorrow."  
"Straighten up and fly right."  
"Goodbye my lady love."  
"Song of Surrender."  
"No can do."  
"You two-timed once too often."  
"Homework."  
"Never trust a woman."  
"Gonna take a sentimental journey."  
"I heard you knockin' but you  
can't come in."  
"Serenade to a jerk."  
"Old Chaperone."

GRADE XI

14. When the West was young.
15. Opening Day of swimming pool.
16. Highland Fling.
17. Here, Lassie!

# SOCIAL LIFE

## Around the Campus

# Social Events . . .

## OPENING DANCE

Our first "mingling of the masses" came early in the year when the annual opening dance was held in the "Y". The object of this dance was to announce the members of the Students' Council.

At first the opening was a little tense, but as soon as we began to recognize a face here and there we departed with the feeling that the coming year wasn't going to be so bad after all.

## HALLOWE'EN MASQUERADE

As the old saying goes, "It started the year out right." The fellows and gals all wore masks and were dressed either hard-time or masquerade. They "tripped the light fantastic" to the music of the school band.

George Hart, dressed as a devil, won the prize for the boys. Pearl Swainson, dressed as a rugby player, won the girls' prize.

Cokes and doughnuts were sold by the Social committee and a good time was had by all.

## SADIE HAWKINS

The girls of C.H.S. really had themselves a time during the annual Sadie Hawkin's week. Invitations were delivered by our mail carriers and the boys were treated to a free week of entertainment.

The dance was held at the "Y" and provided an evening of real fun. The boys and girls were dressed either dog patch style or in calico and jeans. A prize was given for the best dressed boy and girl. This was won by Barney Crawford and Helen Mackay. The prize for the best beard was won by Don Pierlot.

The girls were in their glory because all the dances were ladies (?) choice. The "do" ended at 11 o'clock when the girls proudly walked their favorite catches home.

## CHRISTMAS SEMI - FORMAL

This, the most successful event of 1949, really topped the year off right. It was the annual Christmas semi-formal dance which was held at the "Y" on December 22.

The hall was decorated in tasteful Christmas fashion, the centre of interest being the lighted tree in the middle of the floor.

The girls looked "swish" in their best formals, with corsages which were given them by their favorite beaux and escorts.

The band, lead by Mr. Merta, supplied wonderful music and our president was master of ceremonies. Later Ol' Santa Claus himself appeared to give out the gifts.

Cokes and doughnuts were sold by the social committee and the dance lasted till 1 o'clock.

## SOCIAL EVENTS (Cont'd)

### CLUB 500

"Super, Terrific, Colossal", they all describe "Club 500", an event we won't forget. Music was supplied by Mr. Merta and his "Hep Cats". The highlight of the evening was the crowning of lovely Gail Smith, by our charming Campus Queen of "49", Dawn Code. Bob Gish, master of ceremonies, presented our former Campus Queen Dawn Code with a beautiful bouquet of spring flowers and Gail received a lovely compact. Corsages were presented to all the candidates, then following this came a very entertaining floor show. Those taking part were: Dana Morkerberg, Gaye McCord, Chester Black, Alan Keast, Carl Grasby and the three Enno sisters—Sandra, Ruby and Karen. A few more waltzes wound up a successful evening.

### THUR - TEEN CARNIVAL

Thur-Teen's big event of the year was held on March 22, and turned out a smashing success. All the bright colors and loud music got everyone in a mood to enjoy the carnival attractions. Booths were set up along the walls with bingo, darts, fish-ponds, nickle throw and of course, cokes and hot-dogs.

A side show, under the management of Karen Enno, was one of the main attractions. Aside from this there was dancing for those who were tired of bingo and darts or had run out of the necessary.

Don Pierlot was master of ceremonies. As eleven o'clock approached all eyes were on Don to announce the door prize. This was Bill DeWilde, much to Marjon's delight!

All activities ended at eleven so the dormites could be in before lights-out.

### SOCK - HOP

The dance of the month was in the form of a Sock-Hop held in the gym on April 27.

Admjsion to the dance was a ticket on our candidate for Stampede Queen, Gail Smith. Bob Gish, our master of ceremonies, kept the dance running smoothly with elimination dances, pie eating contests, and other novelty dances.

The Sock-Hop turned out a big success.

Doug: "Are you going to be my caddie, boy?"

Caddie: "Yes, sir."

Doug: "Well, are you very good at finding lost balls?"

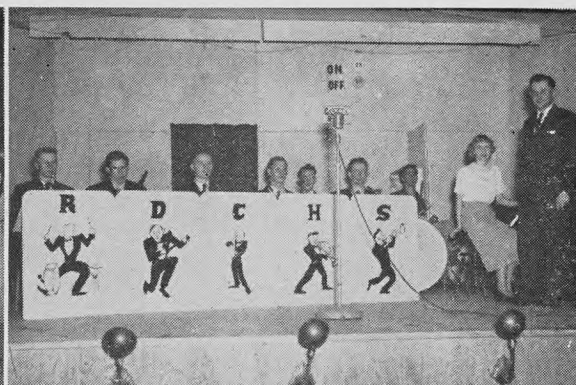

Caddie: "Very good, sir."

Doug: "Well look around and find one and we'll start the game."

### THUR - TEEN EXECUTIVE

Back row, l. to r.: Bob Gish, Shorty Gordon, Freddie Fischer, Don MacArthur.  
 2nd row: Don Pierlot (pres.), Peter McCaffrey, Maxine Field, Karen Enno, Ray Miller, Lorna Chisholm.  
 Front row: Marguerite Groom, Doreen McLean, Mona Rierson, Helen Twack.

### High School Orchestra

(L. to r.): Don McPhee, trumpet; Albert Russell, clarinet; Ron McCullough, sax; Garth Nelson, sax; Oliver Stopsen, banjo; Ralph Jorgenson, sax; J. Jackson, drums; Amy Dick, piano; C. W. Merta, conductor.

## THUR - TEEN

The Thur-teen Club got well under way this year with our own C.H.S. orchestra supplying the music. These short dances which lasted from 8 to 10 p.m. were sponsored every second Thursday.

The purpose of this club was to provide good entertainment for the students and finance the Campus Queen at the Teen conference in Calgary as well as helping to purchase those snazzy blazers and crests for the orchestra.

Special mention is made to Mr. Ohlsen who was our able advisor and to the efficient executive Don Pierlot, president; Karen Enno, secretary; Doreen MacLean, Shorty Gordon, Don McArthur, Pete McCaffrey, Helen Twack, Marguerite Groom, Fred Fischer, Ray Miller, Bob Gish, Mona Rierson, Mackie Field and Lorna Chisholm.

## MUSIC AT C.H.S.

The music department has made a great comeback on the Composite High School's campus. Classes kept increasing till an overcrowded condition existed in both morning and afternoon classes.

The semester was divided into periods of practical music in which the student could take up any instrument he desired. All were coached and instructed by Charlie W. Merta.

A section of the time was devoted to theory, appreciation and history of music. All tied in with the practical work.

Many from these classes carried on their practical work into such activities as the school orchestra. Their talents were displayed at all school parties, both student union affairs and the ever-popular Thur-teen. Besides this they played for public engagements in the vicinity.

Many other activities were carried out in this department such as the Girls' Glee Club, which met on Monday and Wednesday.

All these groups as well as the entire music classes appeared on the great concert of the year—"The Music Ale".

The future of the music at the Composite High School appears very promising and a good course is in store for the students both for credit and extra curricular for the coming term.

## GLEE CLUB

The Glee Club of the Composite High School has in every way lived up to its name, this year. It has indeed, been a "GLEE CLUB."

Under the capable direction of Miss H. Soderman, many carefree hours have been enjoyed.

The first public performance of the group was a radio broadcast of Christmas carols over the local station, CKRD. This, to most members, was a new and exciting experience not soon to be forgotten.

Practices have been held on an average of once a week through out the year. Recently while preparing for an Operetta, no one has grumbled if called on two or three or even four times weekly. The Operetta was presented May 19.

Every member of the club is deeply grateful to Miss Soderman for her untiring efforts to make the year instructive, beneficial and above all a happy one.

**CANTEEN STAFF**—Back row (l. to r.): Doreen McLean, Marj. Matheson, Ann Dinzey, Pearl Swainson (manager), Dawn Code, Frankie Baycroft, Donna Coppock.

Front row: Art McAllister, Ole Widholm, Gary Hughes, Don Pierlot, J. Pistawka.

### THE CANTEEN STAFF

This is the third year of operation for the C.H.S. Canteen. We feel that we owe much to last year's Canteen Committee which was managed by David Ives, for it was they who really got the Canteen rolling and made it what it is now.

This year's committee took over shortly after Easter last year. With Carl Grasby as manager, the committee consisted of: Bob Gish, Bob Schaefer, Don McPhee, Doreen MacLean, Art McAllister, Dawn Code and Mary Hallett. In September, Donna Coppock and Frank Paycroft were appointed to take the place of Mary and Art who did not return.

After the elections last fall, Carl, Bob Schaefer, Bob Gish and Don McPhee found it necessary to resign from the committee because of their offices on the Students' Union Executive. The new members elected were: Don Pierlot, Marj Matheson, Gary Hughes, Johnny Pistawka and myself. Ann Dinzey and Ole Widholme were appointed as weekend committee.

The purpose of the Canteen is mainly to provide money for the Graduating Class, which it uses to pay for the banquet, printing, decorations and orchestra. This year the Canteen has already donated \$200.00 to the rink fund. After graduation, the remaining money will be used to purchase additional fixtures for the canteen, fountains for the gymnasium, paint for the rink, and other works about the school on the committee's decision.

On behalf of the Canteen Committee, I would like to thank Mr. Ohlsen for all the assistance he has given us this year. We wish Johnny Griffith and his committee every success next year.

PEARL SWAINSON

### INTER-CLASS PLAYS

This competition was won this year by the Grade X play "I'm No Shmo."

Joyce Densmore, in the Grade XI play "We The People", won the cup for the best actress.

Unbeatable Alan Keast won the male award for the second time. This year he played the detective in the Grade XII play "The Window". Nessie Tingle, able director of the Grade XII play (who had taken over from John Parton) took the award for the best director. The evening's entertainment was ended by the Congo Dance and the adjudication.

Billy: "Gee, we sure had a swell time last night for ten cents, eh?"

Marion: "Yeh, I wonder how my little brother spent it."

#### **"STATIC" STAFF**

Back row, (l. to r.): Bill Gaetz, Myrna Lundie, Marj. Matheson, Helen Twack, Frankie Baycroft (Editor)

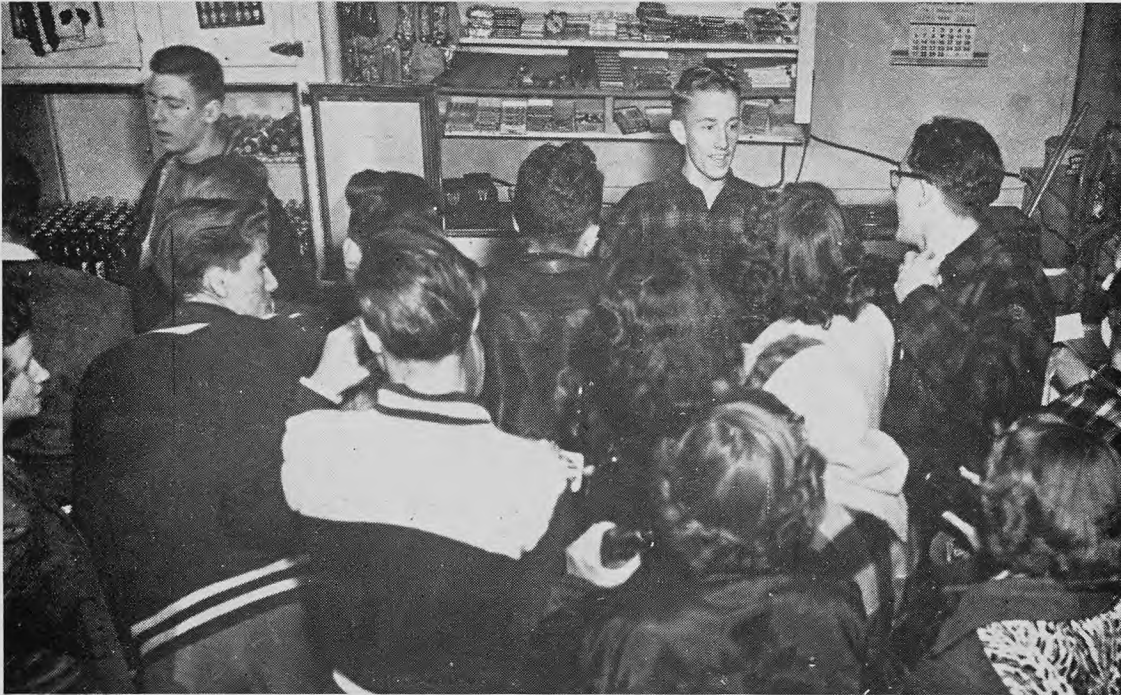

Front Row: Donna Christenson, Jessie Easton, Ann Dinzey, Gerry Henderson.

#### **THE "STATIC" STAFF**

Under the supervision of Mr. Pollock, the static staff turned out a very successful C.H.S. paper. The following staff was appointed for the year: Frankie Baycroft, Geraldine Henderson, Helen Twack, Ann Dinzey, Marj Matheson, Jessie Easton, Myrna Lundie, Donna Christenson and Bill Goetz.

The Static was published twice a month and was composed mainly of sports, dances and other school activities with a short interview of a teacher or student each time.

The Static has been a very important feature in the activities of the student body, and credit is due those who ably helped in the editing of the Static for 1949-50.

**THE CANTEEN—"Taken in Action"**

SPORTS . . .

### **Gir's Senior Basketball**

Back row (l. to r.): Doreen McLean, Marj. Matheson, Helen Twack, Pauline Arnett (coach), Eunice Abbott, Myrna Lundie, Mona Rierson.

Front row: Marguerite Groom, Chlo-ellen Cox (captain), Pat Scott, Gwen Richards.

### **Boys' Senior Basketball**

Ray Schmitt, Lloyd Gillette, Richard Thull, Brick Ward (coach), Jim Heidt, Dale Nay.

Front row: Dale Crowthers, Chesley Gregg, Harold Lehr, Johnny Pistawka (captain).

## **GIRLS' SENIOR BASKETBALL**

The Senior Girls' Basketball team under the capable supervision of Miss Pauline Arnett brought home many merits for Red Deer.

They played a number of games with visiting towns including Olds, Innisfail, Lacombe, Edmonton, Calgary and Raymond.

The team lost the Central Alberta championship to Innisfail by a margin of one point the last three minutes of play. A box of chocolates was presented to each member of the team at the dance held after the tournament. The captain, Chlo-ellen Cox, presented Miss Arnett with a dozen red roses on behalf of the team for her splendid work in coaching them.

The team put up a gallant battle to retain the trophy they won last year but they lost by a narrow margin to Innisfail in the final game of the big sixteen-team tournament held at the Gym on April 1. The game went to the second overtime frame before Innisfail emerged victorious by a two point lead.

## **BOYS' SENIOR BASKETBALL**

The team was organized immediately after football and John Pistawka was elected captain.

The team under the supervision and coaching of Mr. Ward had quite a successful year.

During the season they played many games with teams from the surrounding towns. Also, they played in the city league and provincial playoffs. They finished in a tie for second with the Tanks in the city league, whom they beat in the playoffs. In the finals the High School defeated the Rams to capture the title.

In the provincial playoffs the boys played Hillspring Panthers in the best of three series. The locals lost a real thriller in the first game by a 41-36 score. The second game was one of the best seen here, the locals being edged out 37-35, and in doing so gave Hillspring the series.

Doctor to Mrs. Oke: Your husband doesn't look very good to me.

Mrs. Oke: He doesn't look good to me either, but he's kind to the children.

Third row—l. to r.: Tommy Leader, Shorty Gordon, Pat MacArthur, Bob Schafer, Don MacArthur, Don Vinnedge, Clare Smith.

2nd row: Jarvis Miller (coach), Doug Silverberg, Ronnie McCullough, Johnny Barton, Lloyd Gillette, Roy Gouchey, Cyril Whiteside, Gary Hughes, Phil Greenaway, Lloyd Crawford, Sid Silverman (manager).

1st row: C. Ward (coach), Del Ranks, Geo. Hart, Melvin Johnson, Gerry Laidler, Ted Twack, Doug Strong, Gary Trimble, Ray Miller.

Front: Gary Silverman, mascot.

## FOOTBALL

Football, after an absence of several years, came back to Red Deer this year with a bang in the form of the C.H.S. Gridders.

The Composite High School team made a brilliant showing for a first year club as they finished in second place. They collected two wins, a tie and three losses for five points. The only club ahead of them was Wetaskiwin, who fielded a junior club. Wetaskiwin, however, suffered their only loss of the season at the hands of our team.

Standing of the teams:

Wetaskiwin	4	1	0	50	33	8
Red Deer	2	3	1	46	48	5
Ponoka	2	3	1	43	65	5
Lacombe	2	4	0	44	37	4

(Red Deer has superior point average)

Leading scorers for C.H.S. were:

1. Doug Silverberg—19 points
  2. Roy Gouchey—10 points
  3. Don MacArthur—7 points
  4. Gary Trimble—5 points
- Gary Hughes—5 points

Personnel of the team: Alvin Burrows, Doug Silverberg, Doug Strong, Gary Trimble, Gary Hughes, Mel Jonson, Ted Twack, George Cordon, Don MacArthur, Pat MacArthur, Del Ranks, Ray Miller, Lloyd Gillette, Roy Gouchey, Phil Greenaway, George Hart, Ron McCullough, Clare Smith, John Barton, Jerry Laidler, Lloyd Crawford, Norm Reglin, Cyril Whiteside, Don Vinnedge, Bob Scheaffer, Tom Leader, Chester Black.

Excellent coaching and supervision was given by Mr. Bud Bourke, Sid Silverman and "Brick" Ward.

### BOY'S HOCKEY TEAM

Back row, l. to r.: Lloyd Crawford, Tommy Leader, Bobby Thompson, Doug Silverberg, Don MacArthur, Wm. Service (manager).  
Front row: Doug Strong, Chester Black, Lars Pedersen, Cyril Whiteside, Gary Hughes, Don Loewen, Ted Twack, K. Warkentine.

### BOWLING TEAM

Leone Parcels, Bernice Good, Gerald Martin, Connie Starrat, Bert Sparrow.

## COMPOSITE HIGH SCHOOL COUGARS

The C.H.S. this year entered a team in the "Big Six" rural league. The team performed very well during the season. It started out with a bang sweeping the first six games it played, but sagged badly in the last four contests, dropping three of them.

The final league standings were:

	W.	L.	T.	Pts.
Penhold	7	2	1	15
Burnt Lake	7	2	1	15
C.H.S.	7	3	0	14
Lawrence's	5	5	0	10

In the playoffs Penhold defeated C.H.S. in a close two-game total point series.

While in the other half Burnt Lake beat Lawrence's Juniors and went on to win the league.

Mr. Service and Mr. Evans coached and managed the team.

## BOWLING

Bowling teams were organized at the beginning of the year with Rose Mueller as supervisor. Games were played on Monday and Tuesday nights after school, each team bowling two lines. Gerald Martin's team came out on top for the season. The players on his team were Bert Sparrow, Connie Starrat, Leone Parcels and Bernice Good.

## THE BADMINTON CLUB

The badminton club had a very successful year under the supervision of Mr. Dandell.

The club consisted of ten members with Dorothy Hunt as president and Rose Mueller as secretary.

At the end of the season we had an inter-club tournament, the winners being—

Bob Gish, Boys' singles; June Lovlin and Don Vinnedge, Mixed Doubles; June Lovlin and Rose Mueller, Girls' Doubles.

**Girls' Curling Champs**

**Boys' Curling Champs**

# CURLING

A very successful curling year was enjoyed with two round-robin series being completed.

In the final round-robin McAllister's rink emerged winners of the crests. They nosed out the rinks of Sproule, Silverberg and McPhee.

Members of the winning rink were: Skip, Art McAllister; Third, Fred West; Second, Bob Golden; Lead, Bob Loughheed.

Ken Sproule was elected president of the Curling club with Bob Golden as his secretary.

Teams from Red Deer attended the bonspiels at Innisfail, Olds and Wetaskiwin. A good showing was made at all three places and, as well, an enjoyable time was reported by all.

An all-star team consisting of Art McAllister, Jack McPhee, Ken Sproule and Dana Morkeberg went to Wetaskiwin to represent Red Deer. They took third place, being beaten by Camrose who won the Central Alberta title.

## GIRLS' CURLING

Great interest was shown in curling by the girls this year. Due to the poor curling weather the two teams (Argent and Morkeberg) were unable to play off the final game.

An escaped inmate of the insane asylum returned to his old home, and decided to shave. As he was poised with his razor, ready to start, the mirror fell unnoticed to the floor. "Just my luck," said the man, staring at the empty wall, "my first day home, and I cut my head off."

# SPORT SHORTS . . .

The Red Deer Juvenile and Midget hockey teams went to the finals of the Northern Alberta "B" Playdowns.

The Red Deer Bantams captured the Alberta "B" Bantam title.

Last summer Doug Silverberg won the junior golfing championship and a trip to New Brunswick where he played in the Canadian junior golfing championship. Here, he placed fifth.

Arthur Hart won the Silver Boy Award this year in the Golden Gloves competition.

The basketball fans of Red Deer were treated to some exceptionally good basketball when the Hillspring Panthers played the Composite's senior squad in the provincial high school championships. The Red Deer boys lost the two thrill-packed games by the slim margins of five and three points respectively.

## THE TUMBLING CLUB

The tumbling club consisting of ten boys and six girls, has been advancing very nicely during the past year. Activity was a wee bit slack throughout the winter but with the coming of spring it has again reached a good pitch. The club has given a number of exhibitions, not only at school functions, but also at different towns and villages.

Under the careful instruction of Mr. Ward the club has made definite advancements over last year.

Many people marvel at the different stunts and gymnastics but actually with good instruction and natural ability on the part of the student one can learn the fundamentals of tumbling. Some people believe that tumbling is a lot of playing about and a waste of time but this, of course, is a misconception for it is an excellent way of building muscle tone and co-ordination, and besides all this, it is a lot of fun.

And so to those who are new, and, those who are old, try out the tumbling club, and if you succeed you'll find that it has been a worthwhile achievement.

## HOUSE LEAGUE BASKETBALL

The teams this year were given names and group numbers and now receive radio time on CKRD.

The boys were split into two divisions, the Dorm and the city. Both of these were then divided into four groups, alphabetically with a captain for each group.

These were, in order of league standing:

### CITY

Group 4—Tigers, 10 pts.  
Group 1—Cubs, 10 pts.  
Group 3—Panthers, 10 pts.  
Group 2—Lions, 0 pts.

### DORM

Group 2—Indians, 10 pts.  
Group 1—Giants, 6 pts.  
Group 4—Spitfires, 7 pts.  
Group 3—Pirates, 2 pts.

Group standings were: Group 1 —16 points; Group 4 — 14 points; Group 2 — 10 points; Group 3 — 8 points.

The quality of basketball displayed was exceptionally good.

## GIRLS' JUNIOR AND HOUSE LEAGUE BASKETBALL

A junior team was formed this year by Miss Arnett. This organization gave the girls some fine pointers in basketball. The junior team is just a step up to the Senior team for them now.

The girls' house league basketball had a very successful year. Dorothy Bickell's team came out on top. The girls had a lot of fun along with the instruction in basketball.

## GIRLS' HOCKEY

A girls' hockey team was organized this year by Miss Isabelle Dean. Many girls joined in the fun and all were good sports.

Tom Leader was of great assistance in showing the team some "hockey tactics."

This was a new activity started this year. We hope more girls will turn out and support it next year.

## JUVENILE BASKETBALL TEAM

A juvenile team was organized under the leadership of Jeff Mortimer who starred in Edmonton's senior ranks last year.

The team had a very successful season playing Innisfail, Lacombe, Edmonton and the C.H.S. seniors. The team was beaten only by the local seniors in the regular scheduled games. The juveniles played Edmonton in the provincial finals but, unfortunately, lost both games.

## CAMPUS CAPERS

1. Fill 'em up boys.
2. Une jolie femme.
3. A hard night Irma?
4. Hitch-hikers.
5. A product of the "Ole West"
6. Nice platform
7. Did you win Mr. President?
8. Porky, you never told us!
9. Accident?
10. How did you manage that Gouchey?
11. When you and I were young Maggie.
12. Ugh!
13. Abra-Ka-Dabra.
14. Innocent on-lookers?
15. A thing of the past.

CAMPUS CANDIDS

## THE DORMITORIES

A feature which makes the Composite High School of Red Deer different from most high schools is the dormitory facilities offered to the students.

The school offers accommodation to 130 girls and 220 boys with room for expansion should the need arise.

The students are billeted two to a cubicle. Tables, chairs and beds are furnished. Three blankets are provided but students must bring their own linen.

There is an infirmary attached to both the girls' and boys' dormitories for minor ailments. Doctors are available under the Medical Services (Alberta) Incorporated scheme to which each student must subscribe unless other provision has been made for him.

Study periods are compulsory. Study halls are provided in both the boys' and girls' dormitories for those desiring extra study.

Laundry facilities are available in all dormitories. They are equipped with laundry tubs and ironing boards. Irons may be procured from the office. The use of a washing machine may be obtained for a small fee. Students are to provide their own soap and pressing cloths.

The dining hall is located in a separate building centrally located to all the dormitories. Three hundred and fifty students can be quickly and efficiently served with good wholesome meals. The kitchen is clean, modern and well staffed with expert cooks and highly trained kitchen and dining-hall staffs. The dining hall is spacious, bright and clean.

The girls' dormitories are supervised by two competent matrons who are well-liked and appreciated by the girls in their charge.

The boys' dormitories are in charge of a dean and two supervisors who show keen interest and appreciation of the boys' needs and activities.

# SHOP COURSES

**HOME - MAKING**

**FAB. AND DRESS**

## FABRICS AND DRESS

Three years of Fabrics and Dress are available, with Fab. and Dress "1" and "2" both giving eight credits and Fabrics and Dress "3" 10 credits.

Every girl desires to look her best and the life of a girl is greatly influenced by the way she dresses. In this course a student is taught the type of clothes suitable to her personality, coloring and figure.

Students learn to apply the fundamentals of plain sewing with treadle and electric machines, the use of and alteration of commercial patterns, the selection and buying of materials, and study of textiles.

When a girl starts to sew the instructor has to take into consideration the amount of sewing she has done, then she starts on a garment suited to her ability, so a wide range of garments are made.

Fabrics and Dress 2 is a continuation of Fabrics and Dress 1 and its main purpose is to acquire a greater skill. Fabrics and Dress 3 classes are taught tailoring in garments such as suits and coats. The textile study includes identification of all fabrics and a particular study of the synthetic fibres and other unusual textiles. A study of period costumes, millinery, and lace making form a major part of the theory course.

These three courses in Fabrics and Dress, taught by Miss Bell, are popular, and considered well worth while for a girl's future.

## HOME - MAKING

The Home-Making course offers practice in preparing palatable and attractive foods using variations of standard food recipes. Skill is developed in the planning, preparation and serving of family meals. Also, the planning of afternoon teas, buffet and plate lunches. One has a brief study of first-aid in emergencies, and simple home care of the sick. The care and laundering of various textiles is also taught.

The girls are instructed in personal appearance, good manners, health character, and home life.

You may obtain one quarter of your high school credits by taking the three years of homemaking that are offered.

## ARTS AND CRAFTS

The Arts and Crafts course, worth eight credits toward your high school diploma, is a very interesting one for either boys or girls. In the first semester it is taught by Miss Heywood and in the second semester by Mrs. Huss.

Here art principles, color, decoration, color schemes and rudiments of architecture form a basis for study. Many and varied crafts are executed including leatherwork, metalwork, wood-work, textile painting and stencilling, lino block cuts, tie dying, shell work, bookbinding, soap carving and wood carving.

## CAMPUS CAPERS

1. Charmed, I'm sure!
2. The Star Curling team.
3. Time Marches On.
4. Oh, for a Turkish Bath.
5. When the boys were banned from the girls' dorm.
6. Which vjew is better?
7. Going home?
8. Whew-whew! !
9. B.G.L.
10. Lover boy.
11. Kiss me liver-lips, nothing makes me sick.
12. What's this world coming to?
13. Making love, country style.
14. Which is which?
15. Under the B.13.
16. Serenadin' my lady.
17. There's snow jn Vancouver too.

# The Composite High School

By MR. W. B. DAWE

Not many years ago the Alberta high schools concentrated their efforts on preparing students for the University, and in fulfilling this function most schools obtained very good results. They succeeded in preparing young people for professional training, or for teaching, but these traditional schools had one very serious weakness. Because not over five per cent of the people could possibly hope to earn their living in professional lines, the majority of boys and girls would have to seek employment in other fields. Many would become mechanics, clerks, salesmen, factory workers, farmers. In high school could not something more be done for these students?

Gradually the need was recognized, and small changes were introduced. Students destined for the business world were allowed to spend at least a short time each day in commercial work. Boys might take Manual Training and make table-lamps or picture frames, while girls could study Household Economics. However, except in Western Canada in Calgary, the vocational field was very limited. Then three years ago, in this area, a great step forward was made with the opening of the Composite School.

How does this school differ from the conventional ones? In the first place it differs in size, because this is the largest rural high school in the province. In the matter of floor space the school, dormitories and shops have an area of just a little less than three acres, or about 125,000 square feet. There are 541 students, the boys outnumbering the girls by 286 to 255. In the majority of high schools the girls outnumber the boys by a very considerable margin. Therefore, the enrolment figures are convincing proof of the popularity of the new courses.

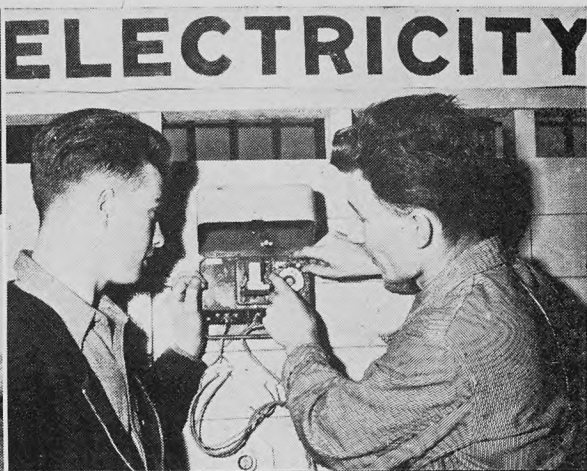

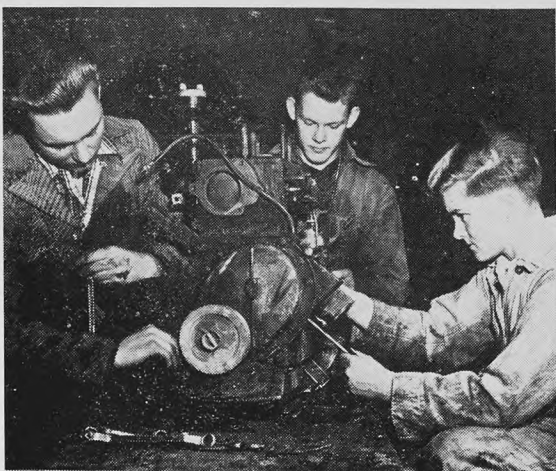

In the second place this school offers a student the greatest scope in the selection of his courses. He may choose training in commercial work of many kinds, automobiles, agriculture, wood and metal work, and in electricity. Girls have a wide choice of subjects in the household economics department. A full-time music instructor is employed, and even pianos are available right at the school for practice during school hours. It should be stressed that the wide variety of vocational courses does not curtail the academic program. A student may secure complete matriculation here.

A third outstanding feature of the school is the dormitory. At the present time living accommodation is provided for 315 boys and girls. Other than in the University residences, this is the largest student-dormitory population of any place in Alberta.

A fourth unique feature of the school is the semester system, adopted on an experimental basis for the 1949-50 school year. This system permits a student to study a limited number of subjects intensively for about three months, the student receiving credit at the end of each semester or the courses successfully completed. Although it is too early to form a verdict on the semester system, the plan has proved popular with the students, enabling about eighty young people, who would otherwise have missed school completely, to attend for at least one semester.

As a test of the Composite School let us look forward ten years to an evening in the home of a young couple who are graduates of the class of 1950. The husband hurries home from work to the spotless cottage (Homemaking I), and to his well-dressed wife (Fabrics and Dress II). He has had a hard day at the garage (Automotive III), but his brother from the country has brought a present of three dozen eggs (Animal Science I), and although Junior may have scratched the furniture, Father knows that it can be repaired (Woodworking I). In fact he does not even fear the job of wiring a new porch light (Electricity II). Of course Father really has no fears about Junior, who will probably be sound asleep in his spot-welded crib (Metal II), and even if the youngster is awake, Mother will have him well under control (Psychology I). At supper Father and Mother discuss matters without Junior understanding them (French III), and even though Mother occasionally splits an infinitive, it does not anger Father, because he realizes that she knows better (English II).

Seriously, though, the success of school is measured by the school spirit developed. In this regard the Composite School stands second to none.

## BOYS' SHOPS . . .

The shop courses are fundamentally wood, metal, auto, mechanics, electricity and drafting. The drafting is closely related to the subject being taught. Each instructor does the drafting pertaining to his subject. All students are taught the selection and use of drawing equipment; geometric construction, lettering, orthographic projection and sections; working drawing and pictorial representation.

A student is entitled to take three years in any of the shop courses.

Woodworking includes a study of the care and use of common woodworking tools. Emphasis is placed upon correct procedures in the fundamental tool operation. Students are given training in more advanced machine operations. Emphasis is placed on millwork, including the making of doors, frames, sash, and stair work, and the application of builder's hardware. Emphasis is also placed upon methods of constructing frame buildings and applying trim and roof construction.

### METAL WORK

Metal work includes machine shop, sheet metal, forging and welding. The courses give fundamental experience in metal. The bench work covers processes at the bench and soldering.

The Machine Shop course gives general practice on the engine lathe, shaper and milling machine giving fundamental information and experiences on processes and operations. Practical problems are assigned and the instruction is largely individual so that the needs of the particular student may be met.

**Welding** Gas and electric welding and cutting equipment and methods. Practice is given in heat treatment of steels.

**Forging** Students are given instruction in handling the forge fire and the tools of the forge shop in shaping of steel.

**Sheet Metal** A basic course in covering the fundamental details of sheet metal work. Practice is given in the laying out of patterns and the making of same.

### AUTO MECHANICS

This course takes up a detailed study of all parts of the automobile—the engine, valve timing, carburetion, etc. Practical work is given on frames, axles, transmissions and engines. The work consists of complete disassembling and assembling of standard systems, with practice in valve timing, fitting of rings and bearings, adjustment of carburetors, etc.

Students receive practical garage experience in overhauling and repairing cars. Apprenticeship recognition may be given year for year of any auto courses taken.

## CAMPUS CAPERS

1. He was just a drug-store cowboy.
2. The Editor, not changed a bit.
3. Cute kid in the middle, eh what?
4. Can't you find anything better to neck with girls?
5. A rose between two thorns.
6. Topsy?
7. My father was a moron, My mother was a moron,  
And I'm a pencil sharpener.
8. Half-back Swainson.
9. Three's a crowd.
10. Exit to the girls' dorm.
11. You tell 'em Bray.
12. Don't let no man get you down.
13. Fight? Should have brought my spoon.
14. Ascending or descending?
15. Muriel, we never thought it of you!
16. Einstein, the third.

# The Semester System

"How does the Semester system work?" This question is asked by scores of people who have heard that it is in operation at our high school. Teachers and students are enthusiastic about the plan. "It is more sensible to study one subject for two hours and accomplish some real learning than to spend 35 minutes nibbling at a subject," is a common student comment. On a recent questionnaire, 96 percent of our students voted for continuing semesters.

Advantages forecast for this system have proven correct. Grade XII students who needed only a subject or two to complete their programs have come to us from various parts of the province. One of the greatest advantages we believed would accrue from the scheme was the enrollment of rural youth during the winter season. Seventy-seven new students registered for the second semester.

We have also discovered the odd weakness. One student found that a two-hour period in Chemistry 2 got monotonous and suggested that 15 minutes would be just right!

## CHEMICAL ANALYSIS OF MAN

**ELEMENT**—Man.

**SYMBOL**—\$

**OCCURRENCE**—Found in the proximity of alcoholic beverages, on the heels of women outside, and on the toes at dances.

**PREPARATION**—From earth.

**PHYSICAL PROPERTIES**—Frequently decomposed either in stewed or pickled state. Face covered by hair, which when unshaven gives striking resemblance to his ancestor. Often very peppery though inclined to turn sour, but may turn sweet when treated with care.

**CHEMICAL PROPERTIES**—Possesses marked affinity for food, drink and trouble. Boastfully inclined and given to vanity in the presence of the female of the species. Turns brown when exposed long out of doors, and green when laid low by smarter specimen. Turns cold when ignored.

**USE**—To worry women.

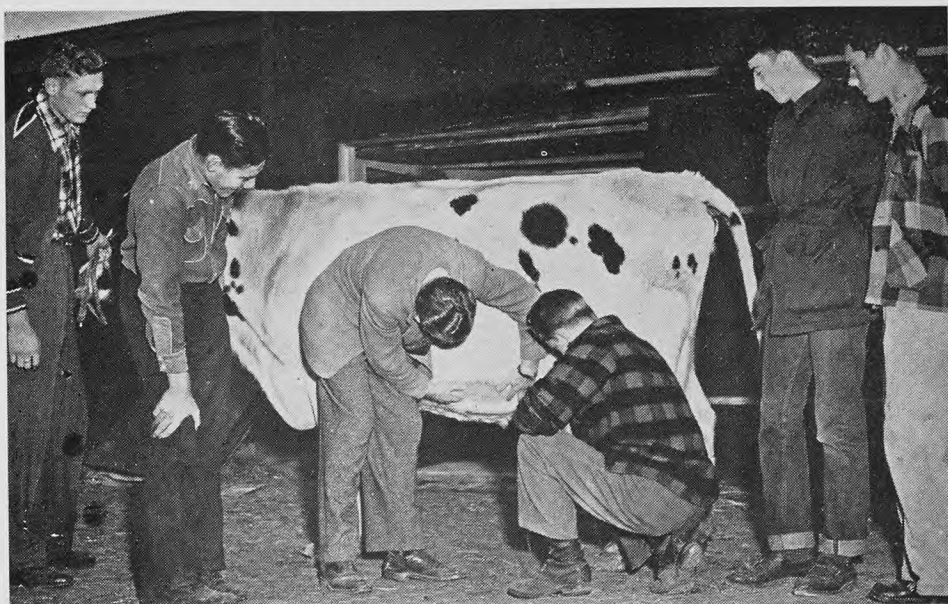

**NOTE**—Highly explosive in inexperienced hands.

**Can you imagine:**

1. Mac 6 feet tall with long hair.
2. Miss Soderman at a hockey game.
3. Lucy without Lorraine.
4. Joan and Marj without gum.
5. Doug, Ted and Smitty without brushcuts.
6. Jean caring less.
7. Rodney taking the same girl out twice.
8. Rocky not flirting.
9. Mr. Evans with 200 kids of his own to look after.
10. Gwen without man troubles.
11. Mrs. Rowat not hearing voices.

# AGRICULTURE

## PLANT SCIENCE

The courses in plant science are practical courses which offer you an opportunity to study and apply those techniques and practices which lead to successful field and horticulture production, and which would be of immediate practical value to you. Through project work carried on at home or at the school, under the supervision of the instructor, you have an opportunity not only to apply what you learn at the school but also to acquire money with which to expand your projects into a business of your own.

In the field and laboratory you test and evaluate different soils; observe, study and plan tillage practices and soil management, paying particular attention to the maintenance of soil fertility and the use of fertilizers. You learn which implements to use, their proper adjustment, maintenance and use.

Considerable practical experience is obtained with cereals and forage crops. You learn about varieties, their identification and where they may best be used. You study recommended cultural practices and crop rotations and get experience in planning suitable rotations.

In the school laboratory, greenhouse and gardens you can learn about the propagation and growing of vegetables, fruits, flowers, shrubs and have an opportunity to do some landscape planning and landscaping.

Weeds, insects and plant diseases have always been detrimental to agriculture. You get a practical training and experience in their identification and control through recommended tillage practices, competitive crops and the use of chemicals.

In planning and preparing your project work you study farm planning, and learn how to keep records and accounts and make plans for further expansion or alteration of your future production program.

## ANIMAL SCIENCE

For three years livestock has been kept at the school. During the first year people who were wondering around the Green Drill Hall found themselves confronted with beef cattle and steers. In the second year, this location was abandoned and replaced by corrals, which were located further north, adjacent to what is now known as "The Barn", (previously the Army Cooking School).

In addition to beef-calves and steers a herd of dairy cattle were added in the second year and this year there is another addition of sixty more, some pigs and a hundred laying hens. It isn't likely more stock will be added, as the plan is to have just enough to serve as lab. material.

Some of these animals belong to the students and the work they do in connection with them is considered as part of the class work. Every so often, some boy will be found cleaning pens, when he should be in library period.

Training is given in the care and feeding of animals; disease and sanitation; animal breeding; judging, housing and practical work. Some work is carried on in the classroom and some in with the stock at school and some on farms located near Red Deer.

Each boy participates as follows: 1. Classroom work. 2. Care and feeding of school animals. 3. Judging stock. 4. Field trips to various places. 5. His own individual project.

Each student cares for his own or some other animal. The grading for the term depends largely on the project animals. Most projects are carried on at home but some are conducted at the school. The boys in Animal Science are sometimes kidded by their school mates about the type of work they do. But they do not mind this for they know that the knowledge gained will be most useful to them. They like the work and besides it is remunerative. When chided because he must clean a calf pen, a student just smiles as he thinks, "Well, French or Latin won't get me any money but a well-cared-for calf will."
